DETAILED ACTION

Response to Amendment

1. Amendments to claims 1, 13, and 14 have been entered in the above-identified application. **Claims 1-18 are now pending of which 15 and 16 are withdrawn from consideration.**

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-14, 17, and 18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Independent claims 1, 13, and 14 have been amended to recite that the cellulose ester film is "transparent". However, the Examiner was unable to locate any support for such an amendment in the original disclosure. The Applicants point to several discussions in the Specification about haze and the desirability of high light transmittance however the Examiner takes the position that such discussions and disclosures do not explicitly or implicitly support the conclusion that the cellulose ester film is transparent. Applicants are required to cancel all new matter in response to this

rejection and are reminded that any previously applied art rejection may be reapplied upon the cancellation of the new matter.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

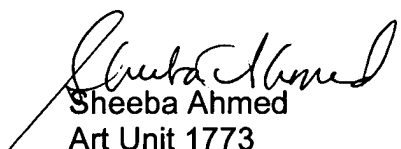

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
